For more information about your participation you can contact 70004464.

# WELCOME SPEECH

It is with great pleasure that we invite you to the “Contemporary practice in IBD” seminar, organized on Sunday, April 7, 2024 at the Radisson Blue hotel in Larnaca.

Inflammatory bowel diseases is perhaps the largest and fastest growing field of Gastroenterology. New diagnostic methods and new drugs help to treat our patients better. One of main concerns of the Gastroenterological Society of Cyprus is to provide opportunities for continuous scientific education of its members. We hope that this seminar will be a successful one, with participation of both Gastroenterologists and doctors of related specialties.

International professors of Gastroenterology from the United Kingdom, Israel and Sweden are invited speakers at this event to present the latest developments in idiopathic inflammatory bowel diseases.

We extend our gratitude to the pharmaceutical companies who support our seminar, as well as to the organizing company Cubix Minds for the excellent cooperation.

Dr. Andreas Evgeniou

President of the Gastroenterology Society of Cyprus
